FIBERGLASS DOORS

DOOR OPTIONS

Never compromise durability for beauty. Good news is, we do both. We build our doors with composite, engineered lumber, which holds up against the elements for strength and longevity, and our foam core offers superior energy efficiency. Our attention to quality is reflected in 20 plus years of manufacturing in Canada. ODL fiberglass doors come in three styles: Estate, Shaker, and Contemporary. Flush Glazed doors offer Shaker and Estate panel designs or opt for full view doorglass.

RIFT CUT

Virtually indistinguishable from the true article, the process begins by constructing an actual wood door and transferring the authentic graining to our unique line of Rift Cut doors. The natural wood graining enables versatility to showcase any stain.

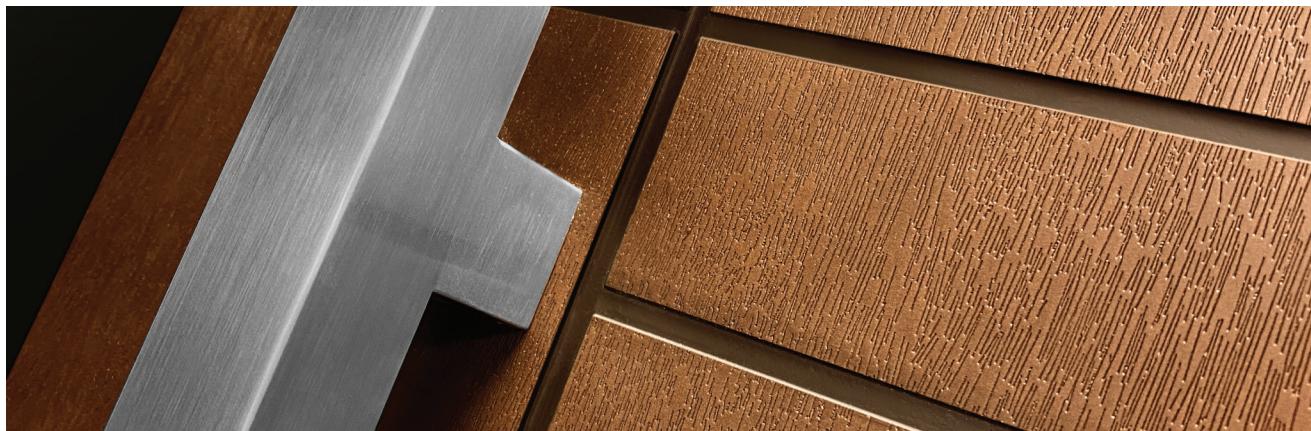

SATIN SMOOTH

The Satin Smooth finish features a unique fine brush stroke surface that's ideal for finishing applications. You can be sure to find any door in this dependable texture.

FINE GRAIN

Designed exclusively for our Contemporary door line, Fine Grain texture has a tighter, finer grain and enhances the look and feel to that of a modern home.

ESTATE

DOOR OPTIONS

Our traditional Estate doors feature Edge embossments having the advantEDGE of being molded from handcrafted wood doors that include actual planks. The Rift Cut door graining, captures the authenticity and appeal of multiple wood species in one distinctly linear texture. From there the choice is yours to stain in rich mahogany, classic oak, elegant walnut, or whatever colour suits your style. Our Satin Smooth door is perfect for any colour finish and provides the durability of fiberglass.

SHAKER

DOOR OPTIONS

Our Shaker door has a clean look with crisp edges, a style which emerged from an arts and crafts movement celebrating the craftsmanship and designs that complement nature with simple lines. This style is also a perfect design for flush glazed doors. That means we have an even greater selection to offer with our well-known insulated glass. It's a deft design approach that eliminates the doorglass frame and provides a clean look with more viewing area.

WHAT'S NEW IN DOORGLASS

STYLE & DESIGN

ODL is a leader in decorative doorglass and our assortment of products has grown over the last couple of years with the acquisition of Tru Tech Doors, Verre Select and Robover. With this growth, we have had the pleasure of selecting the best designs from our global portfolio of doorglass.

ODL has added 8 new designs to our doorglass collection. These strikingly beautiful designs range from stunning camed designs to elegant etched privacy glass. We are always looking for ways to enhance our doorglass offering with on trend designs that are what people are looking for.

STYLIZED DOORGLASS

ODL has added 8 new exciting designs to our extensive doorglass collection. High opacity privacy glass is popular, and we have three new options for our Lightscapes Collection that include Cyndi, a sandblast design with simple vertical lines, Karma, textured enclosed in glass, and Linen, an acid etched design. In our Perspectives Collection we have added Baroque, a subtle wave design that filters the light. New Decorative doorglass features contemporary style camed designs inspired by clean lines with high-privacy textures and patterns that includes Empire, Metro, Neo and Rodin.

Families shown with this icon contain Low-E glass + Argon Gas, the highest insulating glass standard.

CUSTOM DOORGLASS

BLINDS + GLASS

ENCLOSED BLINDS

Enclosed Blinds bring an updated look, feel and finish to your entryway while keeping the same benefits of maintenance-free light and privacy control of enclosed blinds.

This latest design combines easy operating effort and long-lasting reliability that continues our over 20-year history of building the best-selling blinds between glass in the industry.

ODL is leading the industry in enclosed blinds that reduce the safety risk for children and pets. With no dangling cords, our blinds have received two certifications from the Window Covering Manufacturers Association and Parents for Window Blind Safety.

TRIPLE-GLAZED ENCLOSED BLINDS WITH GRILLES BETWEEN GLASS

These enclosed blinds are a perfect choice for people who value energy savings and quiet. The triple-glazed design with Low-E glass option reduces heat transmission by up to 28 percent and carries a 34 STC (Sound Transmission Coefficient) rating for sound suppression. Beyond the comforts and practicalities of a triple-glazed doorglass lie stylish details, with the grilles adding a warm aesthetic. The blind slats disappear behind the valance when they are fully raised for a clean, finished look. Blinds tilt and raise and lower the entire length of the door glass.

WHY ODL

From the creation of the first doorlight on record in the early 1950s, we've been committed to building value through innovations in materials and manufacturing processes. We also build value into our products through research and design. ODL knows trends and technologies that produce products for the times-and sometimes designs that push the times. We aren't afraid to be the leader. When you buy from ODL you are buying from more than just a manufacturer. We've done the research and spot the trends so you can trust that you are not only receiving a well-built quality product, but one that will meet your needs.

ODL continues to keep its sights on what is ahead. We have made significant investments in our test and validation lab so we can continue to bring you the quality high-value products you expect from ODL.

DOORGLASS FRAMES

For nearly 80 years, ODL has been manufacturing top-rated doorglass framing systems, and we offer the widest array of doorglass frame styles, colours and materials in the industry to meet specific needs.

INNOVATION

ODL continues to reframe innovation and design with ZEEL®, a sleek, versatile frame that eliminates the need for screws and screw hole covers with an innovative clip system. Resolve® Sealant eliminates messy wet glaze and won't degrade over time.

DESIGN

Whether you choose to highlight a specific architectural style with our Spotlights® line or want the sleek, minimal look of ZEEL, ODL has the right frame to complement your design choice - classic craftsman or contemporary or somewhere inbetween.

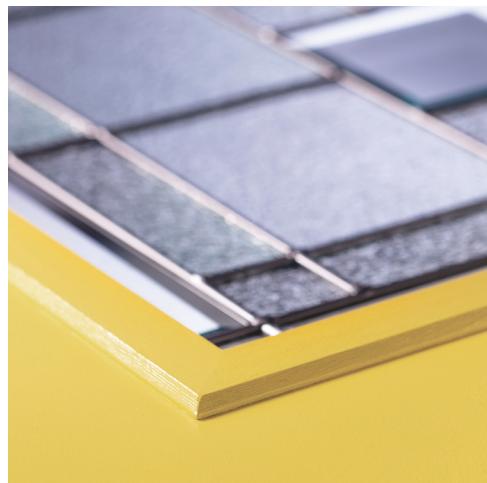

PERFORMANCE

Rigorous third-party testing assures that product performance meets design intent. ODL frames are tested to meet and exceed the North American Fenestration Standard (NAFS) for doors, including structural integrity, resistance to water penetration, air leakage and forced entry.

DOORGLASS PRIVACY

As ODL continues to add a variety of doorglass designs with different types of glass, our customers are asking questions about how we determine our privacy levels. With no industry standard, every manufacturer is free to determine what the opacity or privacy level is for their doorglass. We are leading the way with a standard test using a spectrophotometer to produce an objective number for every glass, every time.

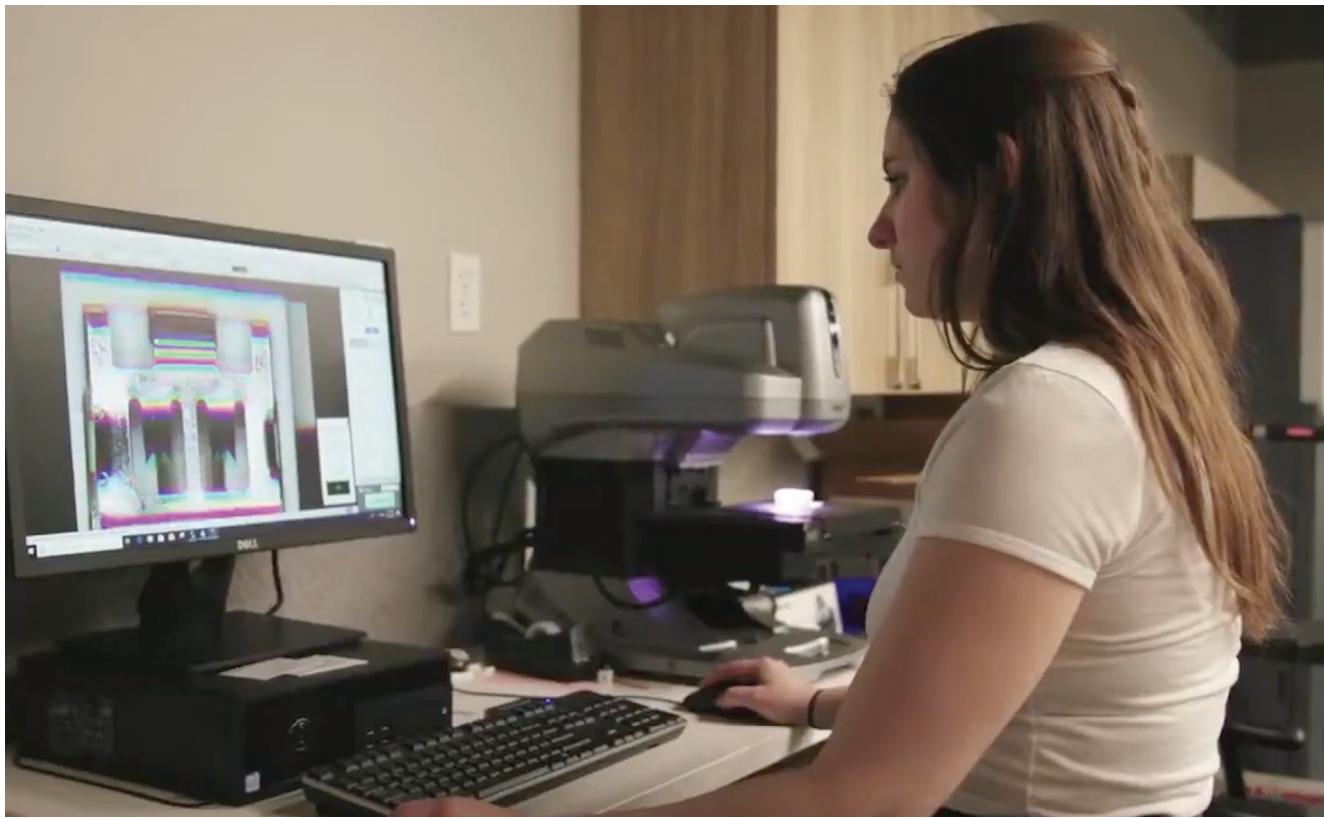

We have eliminated arbitrary numbers and simplified our privacy levels to five categories: none, low, medium, high and maximum. We have created a Privacy Rating scale to visually show this for every doorglass design:

The examples below that show a doorglass design that falls into each one of the five privacy level categories or go to canada.odl.com/catalogue

PEOPLE + CRAFTSMANSHIP

When Cy Mulder opened a small woodworking shop nearly 80 years ago, he did so with the intention of creating products that truly make your life better. This belief remains our guiding principle under today's 3rd generation of ODL family ownership. We build value into more than just our products. We are committed to excellent service, defect-free products, and on-time delivery so that you can confidently trust ODL. We couldn't do that without our amazing employees and partners.
